### Details:

A residential complex of exclusive 2,3 and 4 bedroom apartments created by Rafael de La-Hoz to remove the boundaries between the sea and the complex.

Its 68 apartments and 2 villas are adapted to the organic forms of the Mediterranean environment with all open areas pedestrianised up to the point it meets the sand of the beach.

Once again, cutting edge architecture blends with nature to form a unique project. A project conceived from the unbeatable qualities of the place where it is located, and designed for the people who are going to live in it. Large landscaped areas, large swimming pools and landscaped design. The buildings, of simple forms, have delicately drawn curves. In addition, a spa area and gym where you can take care of your body and your mind.

And finally, no cars moving on the surface, always underground, so that the outer spaces are, indeed, for people. Prices starting from €661.000.
